

I listen to the radio 6 days a week, as I am in my vehicle for the bulk of my work day. I count on K-LOVE to keep the Lord in my mind and constantly in my thoughts. I see alot of bad things going on in this community and how the word of GOD is being misused or forgotten in society. My children have so many outside influences, as we travel around, we listen to K-LOVE and the word of GOD is being passed on into their minds and hearts. The station is safe for my children to listen too as compared to the words in some of the music now a days is so offensive. The radio stations that allow this are only being fined, there pockets are very deep. This does not seem to be solving any of the foul language being spoken in our media today. Displacing K-LOVE by an LPFM broadcaster that does not provide us this opportunity to listen in a safe-family oriented environment, makes it even harder to teach the children the difference between good and bad. When my children are turning on K-LOVE and introducing their friends to the word of GOD is taken from them, the only good outside influence in the media will be gone. I beg of you that the LPFM broadcaster not displace K-LOVE in Phoenix and other cities throughout America. The foundations of this country where founded on the faith of religion, we need to keep what little there still is still available in society. GOD is absent in too many lives to eliminate yet another way for us to hear it daily. I thank you for your time and trust in your hearts, that you all will make the correct decision.

Thank you,  
Gregory T. Martin
